Approved Exterior Paint Color Schemes for “Rancho Dominguez”

Exterior paint colors require pre-approval from the RDPHCA Architectural Committee (ARC), a process that hasn’t always been very efficient. Owners also never knew when their requests were received by the ARC.

To help streamline the process, the ARC is now offering owners twenty three (23) separate paint “schemes”. The colors in each scheme are professionally chosen so there’s no more guesswork about which color looks great with another color. The ARC recognizes that color-savvy owners may want to customize the schemes—and that’s fine. For instance an owner may want to use only two or three of the colors found in each scheme OR to choose completely different but appropriate colors.

THE ARC MUST RECEIVE YOUR COLOR CHOICES AT LEAST 30 DAYS IN ADVANCE OF THE START DATE

- If you choose one of the 23 schemes with no changes, there’s no need to send in paint chips.
 - No design plan is necessary; the scheme already contains that information.
 - Fill out the ARC request form on the website and send it electronically. (Alternatively, you may print out the form and physically mail the completed document to the P.O. Box.) All requests need to be received a minimum of 30 days in advance of the project start date.
 - Pre-approval will likely be very fast, possibly within a few days of receiving the request via the website.
- If you choose one of the 23 schemes but only want to use two or three of the colors, again there’s no need to send in paint chips.
 - A design plan is required noting what part of the house/fence will be painted a particular color.
 - Fill out the ARC request form on the website and send it electronically. (Alternatively, you may print out the form and physically mail the completed document and your design plan to the P.O. Box.) All requests need to be received a minimum of 30 days in advance of the project start date.
 - Pre-approval will also likely be very fast, again possibly within a few days of submission via the website.
- If you choose to change a color or colors within a scheme or if you wish to use your own color scheme, paint chips must be provided along with the design plan.
 - The completed ARC request form, a design plan and paint chip samples need to be mailed to the P.O. Box and received a minimum of 30 days in advance of the project start date.
 - It’s helpful to notify the ARC via the website to let them know your request has been mailed.
 - Pre-approval will likely take longer because the ARC must meet to review your paint choices.
- You can view the 23 schemes at a Dunn-Edwards paint store (the closest stores are 5275 E. Santa Ana Canyon Rd., Anaheim, 675-221-3009 and 1575 N. Placentia Ave., Placentia, 714-572-1223) or go to www.DunnEdwards.com. **The project name is Rancho Dominguez.**
